In the depressing picture of conditions in Porto Rico, drawn by Mr. Robt. E. Pattison, twice governor of Pennsylvania, who has just returned from a visit to our island possession, there is an inevitable indictment of the United States Government which means shame to us as a nation

It is humiliating to realize that we have made of a little people who ac cepted our sovereignty with thanksgiving a people without the protection of a flag, denied the rights of citizenship, cut off from the trade of the world, subject to the rapacity of the American trusts. Never before in our history has the maintenance of such an indictment

against us been possible.

According to Mr. Pattison's story, which is that of an eyewitness and close student of the conditions which he describes, the helpless Porto Ricans are in a more deplorable plight under our control than they were under that

A Village Blacksmith Saved His Little

Son's Life. Mr. H. H. Black, the well-known village blacksmith at Grahamsville, Sullivan county, N. Y., says: "Our little son, 5 years old, has always been subject to croup, and so bad have the attacks been that we have feared many times that he would die. We have had the doctor and used many medicines, but Chamberlain's Cough Remedy is now our sole reliance. It seems to dissolve the tough mucus and by giving frequent doses when the croupy symptoms appear we have found that the dreaded croup is cured before it gets settled." There is no danger in giving this remedy for it contains no opium or this remedy for it cont injurious drug and may be given as confidently to a babe as to an adult.
